General Information

Introduction

This brochure contains brief descriptions of tours available. Please book your excursions as soon as possible since certain shore excursions can accommodate only a limited number of participants. We recommend that you purchase them in advance of your cruise in order to avoid disappointment.

Restrictions

Please note there are certain excursions that for safety reasons, age, weight and/or height restrictions apply. These restrictions are imposed by the individual vendor and Royal Caribbean International must comply accordingly.

Tour Availability

Please note that not all tours are available on all ships. Tour prices and itineraries are in effect at the time of printing. Prices included herein are subject to change at any time and may vary by sailing.

Responsibility

Shore Excursions are offered for sale by Royal Caribbean International as a convenience to our guests. While great care has been taken to offer the finest excursions available at each port, these tour services are provided by independent tour operators, and Royal Caribbean International will not be responsible or liable for any loss, damage, injury, costs or delays resulting from, or in connection with, your use of these services.

Scheduling of Shore Excursions

When planning your shore excursions, please keep in mind the following:

1. Most tours depart from the pier. At the completion of the tour, you will be returned to the pier unless you elect to leave the tour en route. In that case, it will be your responsibility to secure transportation back to the pier.
2. In most ports it is possible to participate in more than one tour. When planning your day, it is advisable to plan at least one hour between your tours.
3. All guests are to be aboard the ship no later than 30 minutes prior to the scheduled sailing time. The scheduling of all shore tours conforms with this requirement. However, if you elect to leave a tour en route, or go ashore on your own, it is your responsibility to return to the ship on time.
4. Kindly note that tour times provided online may be earlier than the vessels scheduled arrival to a port of call. The time listed may be in local time as provided by the tour operator. The most accurate tour departure time will be provided directly onboard the vessel.

Refunds and Cancellations

No refunds are made for failure to use all of the described services included in the tour price. Cancellations by guests must be made prior to the closing deadline advised directly onboard the ship. Under no circumstances will refunds be made after an excursion has commenced.

SeaPass Card

Remember to take your SeaPass Card with you whenever you go ashore. It will serve as your Identification Card which you will be required to show to the officer on duty before re-boarding the ship.

Weather

Most tours will operate rain or shine. However, full refunds will be made to guests holding tickets for canceled shore excursions. In the event of a tour cancellation, every effort will be made to accommodate guests on other available tours.

Helicopter Weight Requirements

Due to weight restrictions on board helicopters, all participants must register their body weight at the time of booking. This is a

requirements of the helicopter companies to ensure guest safety and comfort.

Children's Pricing

Unless indicated, children's pricing is valid for children 12 and under. Guests under 18 years of age must be accompanied by a parent or guardian.

Activity Level

The Shore Excursions presented in this brochure require the guest to use a motor coach or other form of transportation which will require the guest to step up 2 to 3 steps, approximately 10 inches high each. Most (but not all) motor coaches used can accommodate collapsible wheelchairs. However, it should be noted that escorts, drivers, guides, and shipboard staff are not obliged to lift guests into the vehicles. Lift-vans and/or coaches are not available in all ports of call. Tendering may preclude guests in wheelchairs from going ashore at certain ports of call. For further information, please check with the Shore Excursion desk on board immediately upon arrival.

To assist our guests in choosing their excursions, all tours have been graded according to the level of activity they entail. Please refer to the tour symbol(s) that appear(s) in each tour description. Kindly note the below symbols act only as a guideline and guests must make their own judgment regarding participating in tours. The symbols represent the following:

Mild

To fully participate may require leisurely walking over primarily even surfaces. There may be a limited number of steps, a minimal amount of cobblestones or uneven surfaces, and some standing for extended periods of time.

Moderate

To fully participate may require extended periods of walking over even and uneven surfaces, steep terrain and/or water activity in a slight current. There may be steps, inclines, cobblestone surfaces, and extended periods of standing. Participants with physical limitations should take this into account.

Strenuous

To fully participate may require extended periods of physical exertion, extensive walking, climbing, or biking. There may be numerous steps, inclines, cobblestones, and other rough terrain throughout the excursion. These excursions are the most active and have been designed for participants in excellent health and very good physical condition.

Meal

Most tour departures complement the ship's meal service hours. If a meal is served on an excursion, it will be designated with this symbol.

Dress Code

Conservative attire is recommended when going ashore on this tour. No exposed shoulders or knees. Short pants and tank tops are not acceptable.

Shopping

Time permitting, limited shopping is available during the tour.

Waiver

All participants on this tour are required to complete a waiver and/or release form. This document will be distributed by the tour operator prior to commencing the tour.

Light Snack

If a light snack or refreshment is served on an excursion, it will be designated with this symbol.

Family Friendly

These tours may be suitable for families with young children. Age restrictions may apply.

Wheelchair Accessible

For guests who are full-time wheelchair users. Guests may remain in their wheelchair or scooter for the duration of the excursion.

Must Transfer from Wheelchair

For guests who use collapsible wheelchairs or scooters. Guests must transfer from their wheelchair or scooter to board the motorcoach, usually 2 or 3 steps. Guests should be self-sufficient. If assistance is required, guests should travel with a companion to provide any required assistance.

Grenada's capital is very British in nature with the Carenage, an adorable little harbour set in the hollow of an ancient volcano. This is our point of departure from where we launch ourselves in the assault of St George's, following a labyrinth of roads reminiscent of San Francisco.

It is indeed a bit of a climb to reach the heights of Grenadian history; we are on our way to the sumptuous panoramas that can be admired from Fort George which overlooks the small capital. Its ancient stones and rocks tell the tale of the culture shock between England and France in the old days. It stands dominant above the Caribbean Sea, offering a panoramic view of 360 degree.

Leaving Fort George's we will reach the South Point of Grenada to our secluded white sandy beach, where with your feet in the water, your head below the sea grape trees and a rum punch in your hand, you will spend the end of this Creole escapade. Beach Chair available (5USD/chair) but not included in the tour.

The west coast of Grenada hosts a number of features that are very specific to the island: spices and cocoa at Dougaldston Estate, nutmeg in Gouyave and in the tropical heights - waterfalls.

Following the Caribbean rhythm, life glides by at a tranquil pace, you pass one fishing village after another and the coastal beaches form an extended ribbon of coral and volcanic sand. They lead you to Gouyave. Here, fishing is not the only source of income and this small town reveals one of its most surprising features: the nutmeg cooperative plant. Well-protected behind high walls, you travel about one century back in time. The long processing chain of this precious spice starts off in the hands and nimble fingers of the ladies. There are no conveyor belts, no machines.

The next stop is Dougaldston Estate. This ancient plantation opens the wonderful palette of spices and scents of the island. Further down the road a tiny detour into the hills takes you to have look at the Concorde waterfalls.

Note: It is not permitted to take photographs inside the factory. One (1) complimentary drink per person. It is possible to have a dip in the pool of waterfall.

The nutmeg factory in Gouyave is your next stop: you are shown the seasoning, processing and sorting of nutmegs and mace. We continue northward to a magnificent view of Grenada's Grenadine islands, and of the place where the last fighting Caribs committed suicide in 1651, overwhelmed by the prospect of French rule. Your tour continues to River Antoine Rum Distillery: the place is as antique (1785) as the rum is strong (75% alcohol - ouch!) It can be hard to believe that the place is a working distillery, not an elderly museum. Despite its antiquity, it is quite well thought-out, and has environmentally-friendly aspects. By now, you're ready for lunch at the Belmont Estate, a plantation dating back to the 40's. There you will have the opportunity to taste some typical Creole dishes while enjoying a fantastic view of the Estate. Leaving the restaurant, you will return to the pier through the rain forest over the mountains with a stop at Grand Etang, home of the Mona monkey, and Annandale Falls where you can take a short walk of the surrounding gardens.
